

## Clearing Notice

TO: Cboe Clear U.S. Clearing Members  
FROM: Cboe Clear U.S. Clearing Operations  
NOTICE: #26-01CN  
NOTICE DATE: January 9, 2026  
SUBJECT: Update to Cboe Clear US Clearing Member Portal (CMP) Login

**Effective January 27, 2026**, Cboe Clear U.S., LLC (CCUS) will implement certain enhancements to the Clearing Member Portal (CMP) login process. These updates are intended to strengthen security and streamline the withdrawal process.

### Key Enhancements

#### Mandatory Multi-Factor Authentication (MFA)

MFA, currently optional, will become required for all users. Upon your first login after the release, you will be prompted to configure an MFA. This will be required for all future access to CMP.

#### Removal of Funding Passwords

The requirement to use a funding password for withdrawal requests will be retired.

### Implementation Timeline

MFA login for access to CMP will be mandatory beginning on January 27, 2026. The new login functionality will be available in the New Release (NRL) environment on January 12, 2026. Upon initial login in NRL, you will be prompted to set up MFA. It is encouraged that you test this functionality in NRL in advance of the January 27, 2026 Production release date.
